Courses depending on this Course	N/A				

Course objectives:

The goal is to explain theory of legislation, especially in Czech constitutional and legal order; to analyze the case law of Constitutional Court from the point of view of constitutional review of statutes and regulations (including the problem of legality of regulations and by-laws). The integral part of lectures is a detailed analysis of rules of legislative process and its course in both chambers of Parliament. Another important part is technique of legislation and its practical use. The necessary part of the course forms also the explanation of problems of compatibility of Czech statutes and regulations with European Community law.

Requirements on student

Written examination

Content

The subject TLLP is focused on the explanation of basic principles of legislation and requirements on the content of statutes and regulations, their preparation and procedure for their adoption and publication. It explains the problems of legal language, legal principles, legal concepts, legislative technique, structure of statutes and regulations and relationship between Czech statutes and Community law and international law.
